In loving memory of
Shorty Biedenbender
(2/6/13)

You can shed tears because they are gone, or you can smile because they lived.

You can close your eyes and pray they will come back, or you can open your eyes and see all that they left for you.

Your heart can be empty because you can't see them, or you can be full of the love you shared.

You can turn your back on tomorrow and live yesterday, or you can be happy for tomorrow because of yesterday.

You can remember only that they are gone, or you can cherish their memory and let it live on.

You can cry and close your mind and feel empty, or you can do what they would want.

Smile, Open your heart, Love....and go on.

- Lori

NUSYN

--	--	--	--	--

Guess Who?

I am an actress born in Louisiana on March 22, 1976. I became a fashion model for a TV advertisement at the age of 7. My various screen roles have kept me busy. One movie in particular helped me earn several awards.

Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!
